

I am running the older version of Auto-Mate. Can I try the newer version first before purchasing?

You can try the new version for 30 days before it prompts for registration.

It maintains its rules in a total separate database, so you can switch back at any time.

To try it, do the following:

1.
Close Outlook
2.
Uninstall the current version using Control Panel Add/Remove Programs. Your rules remain.
3.
Download and install version 3.x.
4.
Use the supplied DB upgrade Tool located on the START menu to copy and convert your rules to the 3.x format.
5.
Start Outlook.

Any time you want to go back, do the following:

1.
Close Outlook
2.
Uninstall the new version using Control Panel Add/Remove Programs.
3.
Download and install the older version from our website.
4.
Start Outlook. Your old rules will be there, and you will be back up and running.
